

XM Cyber Exposure Management Service

Reduce Cyber Risk and Maximize Your ROI with the Hands-on Management Services

In the face of seemingly overwhelming security threats, organizations are struggling to hire security expertise in today's challenging security job market. XM Cyber's Exposure Management Service is designed to extend your security team with the expertise needed to optimize continuous exposure management and remediation programs.

With our dedicated Exposure Management Service experts working side-by-side with your team, you can continuously reduce your organization's exposure to potential security risks. Seamlessly integrated into your operational remediation processes, EMS provides a proactive approach to identifying and resolving security issues.

A Force Multiplier for Your Security Team

You can leverage XM Cyber's Exposure Management Service to continuously reduce exposures and:

- Establish, operationalize, and improve your remediation processes
- Work with your remediation teams (IT/Infra/Devops etc) to push prioritized remediation activities into actions and track them
- Get focused Remediation reports and prioritization tailored to you
- Understand progress with monthly reports and follow up on remediation status

Discover the proactive, best-practices-based approach and continuously identify and resolve your highest priority security exposures.

XM Cyber is a leader in hybrid cloud exposure management that's changing the way organizations approach cyber risk. XM Cyber transforms exposure management by demonstrating how attackers leverage and combine misconfigurations, vulnerabilities, identity exposures, and more, across AWS, Azure, GCP and on-prem environments to compromise critical assets. With XM Cyber, you can see all the ways attackers might go, and all the best ways to stop them, pinpointing where to remediate exposures with a fraction of the effort. Founded by top executives from the Israeli cyber intelligence community, XM Cyber has offices in North America, Europe, and Israel.
